Technical Team Leadership

Project Management

Objective

After 6 years spent in Software Consulting at IBM - working with clients such as Wal-Mart, New Balance, Johnson & Johnson, and Google - I am ready for a new adventure in the web3 world. With a year spent independently mastering blockchain fundamentals, smart contracts, and front-end development, I've honed a skill set that's fueled by an unwavering enthusiasm for programming and blockchain technology.

Experience

JULY 2022 - PRESENT

Independent Blockchain Developer | Boston, MA
